FACTORIES & BOILERS INSPECTION DEPARTMENT

NOTIFICATION

Jaipur, July 23, 2025

G.S.R.48 .-The following draft rules further to amend the Rajasthan Factories Rules, 1951 which the State Government proposes to make in exercise of the powers conferred by section 112 of the Factories Act, 1948 (Central Act No. 63 of 1948), is hereby published as required by section 115 of the said Act for information of all persons likely to be affected thereby and notice is hereby given that the said draft rules would be taken into consideration after the expiry of a period of forty five days from the date on which the copies of Official Gazette in which these draft rules is published are made available to the public.

Any objection or suggestion which may be received from any person in respect to the said draft rules before expiry of the period as specified above will be considered by the State Government. Such objections and suggestions should be addressed to the Chief Inspector of Factories & Boilers, Rajasthan, 6-C, Jhalana Institutional Area, Jaipur-302004 or by email cifb@rajasthan.gov.in.

DRAFT RULES

1. Short title and commencement.-(1) These rules may be called the Rajasthan Factories (Draft Amendment) Rules, 2025.

(2) They shall come into force with effect from the date of their final publication in the Official Gazette.

2. Amendment of rule 100.- In rule 100 of the Rajasthan Factories Rules, 1951,-

(i) in Schedule II, the existing paragraph 3 shall be substituted by the following paragraphs 3 and 3A, namely:-

“3. Special provisions for women and young persons.- No pregnant woman, lactating mother, adolescent and child shall be employed or permitted to work in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that engineering control (enclosed system) is installed at bath and specialised Personal Protective

Equipment including impermeable gloves and face shield shall be provided to such employed woman.

3A. Air monitoring and safety training.-To maintain air quality, regular air monitoring shall be carried out. Regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”;

(ii) in Schedule III, the existing paragraph 3 shall be substituted by the following paragraphs 3 and 3A, namely:-

“3. Special provisions for women and young persons.- No pregnant woman, lactating mother, adolescent and child shall be employed or permitted to work in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that automated process is installed at such place to minimize direct human contact.

3A. Health monitoring and safety training.- Regular blood lead level monitoring shall be carried out. Regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”;

(iii) in Schedule IV, the existing paragraph 4 shall be substituted by the following paragraphs 4 and 4A, namely:-

“4. Special provisions for women and young persons.- No pregnant woman, lactating mother, adolescent and child shall be employed or permitted to work in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that engineering control, heat shields and cooling system are installed at every place where such process or operation is carried on and limited exposure periods and rotation schedules shall be maintained and specialized Personal Protective Equipment including respiratory protection shall be provided to such employed woman.

4A. Heat stress monitoring and safety training.-Regular heat stress monitoring shall be carried out. Regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”;

(iv) in Schedule VI, the existing paragraph 4 shall be substituted by the following paragraphs 4 and 4A, namely:-

“4. Special provisions for women and young persons.- No pregnant woman, lactating mother, adolescent and child shall be employed or permitted to work in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that automated handling systems and enclosed system are installed at every place where such process or operation is carried on and specialized Personal Protective Equipment including respiratory protection shall be provided to such employed woman.

4A. Health monitoring and safety training.-Regular blood lead level monitoring shall be carried out. Regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”;

(v) in Schedule VII, the existing paragraph 1 shall be substituted by the following paragraphs 1 and 1A, namely:-

“1. Special provisions for women and young persons.- No pregnant woman, lactating mother, adolescent and child shall be employed or permitted to work in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that remote monitoring systems and gas detection equipment are installed at such place and specialized Personal Protective Equipment including self-contained breathing apparatus shall be provided to such employed woman.

1A. Emergency response and safety training.- Emergency response training and regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”;

(vi) in Schedule VIII, the existing paragraph 2 shall be substituted by the following paragraphs 2, 2A and 2B, namely:-

“2. Prohibition of sand blasting.- Sand or any other substance containing free silica shall not be introduced as an abrasive into any blasting apparatus and shall not be used for blasting.

2A. Special provisions for women and young persons.- No pregnant woman, lactating mother, adolescent, child or young person shall be employed or permitted to work in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that blasting shall be carried out in enclosed system and local exhaust ventilation is installed at such place and specialised Personal Protective Equipment shall be provided to such employed woman.

2B. Safety training.- Regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”;

(vii) the existing PART-IX of the Schedule X shall be substituted by the following, namely:-

“PART-IX

Special provisions for women and young persons

1.No pregnant woman, lactating mother, adolescent and child shall be employed or permitted to work in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that chemical-specific preventive measures are taken and toxicity information shall be displayed at such place.

2.Regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”;

(viii) in Schedule XI, the existing paragraph 5 shall be substituted by the following paragraphs 5 and 5A, namely:-

“5. Special provisions for women and young persons.- No pregnant woman, lactating mother, adolescent and child shall be employed or permitted to work in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that wet method is used to reduce dust and lead-free glazes shall be used.

5A. Safety training.- Regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”

(ix) in Schedule XII, the existing paragraph 4 shall be substituted by the following paragraphs 4 and 4A, namely:-

“4. Special provisions for women and young persons.- No pregnant woman, lactating mother, adolescent and child shall be employed or permitted to work in in any process or operation specified in this schedule or at any place where such process or operation is carried on. However, before employing any woman other than pregnant woman or lactating mother to carry out any process or operation specified in this schedule, the occupier shall ensure that automation of lead handling is implemented and enclosure of lead processes is installed at such place and specialized Personal Protective Equipment including respiratory protection shall be provided to such employed woman.

4A. Health monitoring and safety training.- Regular blood testing shall be carried out. Regular safety training shall be provided to all persons employed to carry out process or operation specified in this schedule.”;
