

OVERVIEW

Approval of plan and permission to construct/extend/or take into use any building as a factory under the Factories Act, 1948

In order with Business Reform Action Plan in the State of Rajasthan and to facilitate industrialist, RajFAB Portal has been formulated to execute the vision of providing easy and convenient access to the services to the enterprise(s) through remote online access. With the help of the portal, applicants shall be able to apply online for factory registration /renewal/drawing approval/self-certification and boiler registration /renewal/self-certification. Applicants can apply, make online payment, view the application status and download certificates/licence online. User can submit Single Integrated Return under all Labour Acts/inspection compliance/notice of Incident.

This is a mandatory pre-requirement for getting license for all factories except Non-Hazardous Factories employing up to 50 workers.

Objectives of RajFAB web portal

Easy Access

Providing easy, in time, anywhere and anytime access to various departmental services. Ensures privacy and authorized access to applicant's data.

Online only. No need to come to office.

To provide all work/activities related to department done online only and user need not come to office. Reducing direct interaction of citizens with the Government and encourage "e"- interaction and more efficient communication through the portals.

Reduction in cost

Reducing administrative tasks and service execution time and cost for the Government and user. Provide paperless and transparent work.
